to 11 RabiI 1426 H / 20 April 2005 G**

What is Evidence – Based Medicine (EBM)?

It is an approach to health care practice in which the clinician is aware of the evidence that bears on her / his clinical practice and the strength of that evidence. Practically it means integrating the individuals experience with the best available external evidence in making decision.

Why is EBM important?

Everyday clinicians and health care workers face questions about the interpretation of diagnostic tests, harm associated with treatments they provide, prognosis of a disease in a specific patient and the effectiveness of a preventive or therapeutic agent. They need to know whether the results of studies providing them with answers are valid.

Who Should Attend?

Trainers in postgraduate residency training programs. Physicians in all specialties, Surgeons, Nurses, Dieticians and Health care providers interested in improving their evidence based clinical decision making.

Course Objectives

To help participants:

- understand the concept of EBM.
- advance their literature search skills.
- advance their critical appraisal skills and enable them to interpret statistical tests and different forms of data commonly used in published literature.
- learn how to use EBM calculators in 'HANDHELD' PDA's (e.g. palm, Q-tech, i-mate)

Credit Hours

The course is accredited for 23 CME hours by the Saudi Council for Health Specialties, reg. No. 2112/3/2002 Date: 1/7/1423.

Course Format

The course is offered as a 3 day intensive course. It will contain lectures introducing participants to the main concepts of EBM and critical appraisal of commonly used studies. It also includes critical appraisal workshops led by experienced facilitators.

Participants will:

- have the opportunity of discussing steps and clarifying ambiguities in critical appraisal small groups
- be able to conduct practical computer search with direct guidance, to help develop their evidence searching skills.

Course reading materials

Prior to the course, each participant will receive educational materials that include literature on guides on using medical literature (critical appraisal guide) and papers that will be discussed in the course. We expect participants to familiarize them selves with this material in advance of the course.

Course Location

The course is held at Dar Al Iman Intercontinental Hotel, Madina. Located in front of the Profit Mosque, it has magnificent views of the Al Haram Al Nabawi Al Sharif.
