Publications

Family Practice (international):

Association between perceived health status and satisfaction with quality of care: evidence from users of primary health care in Oman. *Family Practice*. 2004; Vol 21 (5): 519-527.

Oman Medical Journal

Quality assessment and assurance of health care services: fundamental need. *Oman Medical Journal*; 2004 April; Vol. 19 (2): 3-5.

International Journal for Quality of Health

Association between the perceived health status of primary health care (PHC) users and their satisfaction with the quality of health care: evidence from community respondents in Oman. Accepted for publication and still under editing.

In addition, I have written several articles in the official local newspaper related to various issues such as globalisation and health of the individual and community, and health care quality.

Workshops

I have attended and arranged several workshops at national and international levels. For example I recently attended a workshop on Academic Advising for Students in the COM&HS arranged by Sultan Qaboos University; 2/1/2005 and workshop on competency Based Training (CBT) arranged by SQUH; 1/12/2004.

Researches

1. Community perception of medical errors (submitted to ISQUA Conference)
2. Doctors' perception about clinical practice guidelines (CPGs) at Sultan Qaboos University Hospital

Other international activities

Reviewer for the BMJ 2003.
